- Execute mechanical and electrical modifications and retrofits
- Inspect chassis and body components
- Install accessories and additional systems
- Perform general maintenance and service tasks

SKILLS:

- Successfully completed vocational training as an Automotive Mechatronics Technician
- Commercial Vehicles (m/f/d) or as an Agricultural and Construction Machinery Mechatronics Technician (m/f/d)
- Experience with various truck chassis and body types is desirable
- Welding experience is an advantage
- Conscientious, customer-oriented, and a team player
- Driver's license class B; CE is an advantage
- Manual dexterity and physical resilience
- Self-motivation, initiative, and a structured, performance-oriented working style
- German language skills at least at level B1 required

PLACE OF WORK: München, Landkreis - Deutschland

WORK CONDITIONS:

- System-relevant position with high job security
- Family-run company with short decision-making processes
- Flexible working hours
- Health management program
- Long-term employment
- Friendly and collegial working environment
- Support with housing if needed
